

DR. NAGESH DHADGE

Consultant - Pulmonology

Qualification

MBBS | MD (Respiratory Medicine) | MRCP | SCE (Respiratory Medicine) From Royal College Of Physicians, UK | DCCM | FRCP (London)

Overview

Dr. Nagesh Dhadge is a highly qualified and experienced Consultant in Pulmonology, Respiratory and Sleep Medicine at Manipal Hospital, Baner. With over two decades of clinical practice, Dr. Dhadge is widely respected for his expertise in treating a broad spectrum of respiratory conditions, including asthma, COPD, interstitial lung diseases, tuberculosis, and sleep-related breathing disorders like obstructive sleep apnoea. He completed his MBBS and MD in Tuberculosis & Respiratory Diseases from the renowned B J Medical College, Pune, and later pursued international qualifications such as the MRCP in General Medicine (Ireland) and a Speciality Certificate in Respiratory Medicine (UK). He also holds a diploma in Critical Care Medicine and has undergone advanced training in bronchoscopy and allergy management. Dr. Dhadge has successfully performed over 1,000 specialised respiratory procedures, including diagnostic bronchoscopy, pleural tapping, thoracoscopy, and allergy testing. He is particularly known for his patient-centric approach, combining accurate diagnosis with evidence-based treatment plans tailored to each individual. His contributions to academic research are commendable, with several publications in national and international journals. He has also presented at major global respiratory congresses, including those hosted by the European Respiratory Society and the Asia Pacific Society of Respiriology. Apart from his clinical excellence, Dr. Dhadge is appreciated for his compassionate and clear communication with patients. His ability to simplify complex medical information has made him a trusted figure among his patients in Pune. At Manipal Hospital, Baner, Dr. Dhadge provides both outpatient consultations and inpatient care, offering advanced facilities for pulmonary function testing, sleep studies, and respiratory interventions. He continues to be a leading name in respiratory care, committed to helping patients breathe better and live healthier lives.
