

DR. RAHUL WHATKAR

Senior Consultant - Radiologist

Qualification

MBBS | DMRD | DNB

Overview

Dr. Rahul Whatkar is a trusted name in the field of radiodiagnosis and imaging, currently serving as a senior consultant at Manipal Hospitals, Baner, Pune. With over 8 years of experience, Dr. Whatkar brings a perfect blend of academic excellence, diagnostic accuracy, and clinical expertise. He completed his DMRD from Government Medical College, Nagpur, in 2012, followed by a DNB in radiodiagnosis from KEM Hospital, Pune, in 2014, both esteemed institutions known for producing top-tier medical professionals. Over the years, he has built strong capabilities in interpreting complex scans and performing precise imaging-guided procedures. Dr. Whatkar's core areas of expertise include cross-sectional imaging (CT/MRI), musculoskeletal radiology, gastrointestinal and urogenital imaging, and ultrasound and CT-guided interventions. His clinical background includes working in high-volume diagnostic centres, private nursing homes, and a 700-bed tertiary care hospital, which has significantly shaped his skills in routine as well as specialised radiology services. He is an active member of the Indian Radiological and Imaging Association (IRIA) and has participated in several radiology competitions and academic forums. Notably, he was a winner in national-level quizzes such as the Radiology Education Foundation (REF) Quiz, RARE Quiz, and ISVIR Quiz during his postgraduate training. He has also contributed as an author to the IRIA Textbook of Radiology, writing the chapter on CT urography. At Manipal Hospitals Baner, Dr. Whatkar plays a vital role in supporting departments with high-quality imaging services that are integral to patient diagnosis and treatment planning, ensuring accurate, safe, and efficient care delivery.
