

DR. MAYUR SURYAWANSHI

Consultant - Oncopathology

Qualification

MBBS | DNB (Pathology)

Overview

Dr. Mayur Suryawanshi is a renowned Onco Pathologist in Pune. With over 15 years of experience in histopathology, he is a passionate and dedicated leader in his field. As a consultant histopathologist, which includes onco pathologist, he actively participated in the independent reporting of a wide range of cases. Participating in the training program for undergraduate medical students and histopathology registrars is another aspect of his job. He is trained in one of the most prestigious and unique institutes in India i.e. Christian Medical College (CMC) Vellore, Tamil Nadu. He is the foremost Pathologist in Pune. Dr. Mayur participates actively in departmental seminars, journal reviews, slide sessions on histopathology, and while educating postgraduate students. His ultimate objective following this intensive training is to contribute as much as possible, using the resources at hand, to the patient's diagnosis and treatment. Dr. Mayur holds expertise in examining tissue samples, often biopsies, under a microscope to identify abnormalities. He then analyses and interprets these findings to diagnose diseases like cancer, inflammatory conditions, and infections. Utilizing various techniques like immunochemistry and molecular testing for further investigation and confirmation of diagnoses. His areas of expertise include Oncopathology, Soft Tissue/Bone Tumours, Female Genital Tract Tumours, Male Genital Tract Tumours, GI Biopsy, Cytopathology, IHC, and Frozen Sections. Dr. Mayur prepares detailed reports and communicates their findings to referring physicians for effective patient care. He also provides his expert second opinion on outside review cases. He also holds expertise in rapid tissue intra-operative diagnosis of frozen sections. In addition to this, he consults with other healthcare professionals like surgeons and oncologists to discuss diagnoses and guide treatment plans. Dr. Mayur also presents and discusses patient cases at multidisciplinary team meetings and provides mentorship and guidance to laboratory technicians and residents. He has written articles which have been published in Indian & International Journals. He has been a post-graduate teacher for years.
