

DR. ABHIJEET DASH

Consultant - Critical Care Medicine

Qualification

MBBS | DNB | DrNB (CRITICAL CARE MEDICINE)

Overview

Dr. Abhijeet, a critical care consultant with extensive training and experience, works at Manipal Hospitals, Bhubaneswar. Dr. Abhijeet possesses various qualifications and is committed to providing patients with optimal medical care. In 2012, he graduated from MKCG Medical College, Berhampur, with an MBBS degree. Post MBBS, he worked in KIMS ICU as a junior resident for 1 year, following which he joined Fortis Hospital Bannerghata Road, Bengaluru for his post-graduation degree in anesthesiology. In 2018, he completed his post-graduation, following which he joined Sunshine ICU as a senior registrar, where he worked in both the medical and surgical ICU for around a year. He completed his superspecialisation in critical care medicine from Manipal Hospitals (formerly Amri Hospitals) in 2022 and has continued in the hospital since. He is a very sincere and robust doctor and has vast experience and awareness in the medical area, including life-saving skills and difficult procedures requiring expertise. He has received many accolades for his contribution as a COVID-19 warrior during the brutal pandemic. He further worked as an associate consultant in Manipal Hospitals for around 3 years, in which he excelled in various fields of critical care, including cardiac critical care, ECMO, advanced hemodynamic monitoring and other life-saving advancements and procedures. Starting from his medical career, he has been actively engaged in excelling life life-saving skills and academic activities. Dr. Abhijeet has been a faculty member for students of both DNB anesthesiology and DRNB critical care medicine. He has a special interest in managing difficult ventilated patients, and his patient-oriented, compassionate and empathetic approach towards patients makes him a renowned and popular intensivist. He is the best Critical Care Doctor in Bhubaneshwar.
