Overview

Dr. Ankush Bansal is a highly skilled and experienced Oral and Maxillofacial Surgeon, widely recognized for his expertise in diagnosing and treating a wide range of conditions related to the mouth, jaw, face, and neck. With years of specialized training and clinical practice, Dr. Bansal offers comprehensive surgical and non-surgical solutions for patients requiring oral and maxillofacial care. His exceptional skill set, combined with a compassionate and patient-centric approach, has earned him a reputation as one of the leading oral surgeons in his field. He is the foremost Oral And Maxillo Facial Surgeon in Broadway. Dr. Ankush Bansal specializes in the diagnosis, surgical treatment, and rehabilitation of a variety of conditions affecting the oral and facial structures, including maxillofacial prosthetics, oral surgery, and reconstructive surgery. His dedication to improving patients' quality of life through advanced techniques and personalized treatment plans makes him a sought-after specialist in oral and maxillofacial surgery. Dr. Ankush Bansal has a distinguished academic background, holding a degree in Bachelor of Dental Surgery (BDS) followed by a Master of Dental Surgery (MDS) in Oral and Maxillofacial Surgery. His in-depth education, which combines both theoretical knowledge and practical experience, provides a solid foundation for performing complex surgeries and procedures. In addition to his academic qualifications, Dr. Bansal has undergone rigorous hands-on training in various aspects of oral and maxillofacial surgery, including trauma care, cosmetic facial surgery, implantology, and jaw reconstructive surgery. As an expert Oral and Maxillofacial Surgeon, Dr. Bansal specializes in several advanced procedures, providing comprehensive treatment for a range of conditions involving the face, mouth, and jaws. His key areas of expertise include: Dr. Bansal is highly skilled in maxillofacial prosthetics, which involves the design and placement of prosthetic devices for patients who have suffered facial trauma or congenital deformities. This includes prosthetics for facial reconstruction, including artificial eyes, ears, noses, and palate prosthetics. These prosthetics are carefully crafted to match the patient's natural features, improving both appearance and function. Dr. Bansal's attention to detail in creating and fitting these prosthetics ensures that patients regain confidence and functionality in their daily lives. Maxillofacial prosthetics are often required after trauma, surgery, or congenital defects, and Dr. Bansal works closely with patients to ensure the best possible outcomes, utilizing both advanced technology and materials to achieve a natural look. Dr. Bansal provides expert care for oral surgery, which includes a wide variety of procedures aimed at improving oral health and treating conditions affecting the mouth. These include tooth extractions, impacted wisdom teeth removal, dental implants, and treatment of oral cancers. His precision in oral surgical procedures ensures minimal discomfort and faster recovery times for patients. Whether a patient requires routine extractions or more complex procedures like the surgical placement of dental implants, Dr. Bansal ensures that each treatment is tailored to the patient's unique needs. Oral surgeries can also include the treatment of oral infections, jaw alignment issues, and oral pathology. Dr. Bansal uses cutting-edge techniques and the latest advancements in oral surgery to provide the highest quality care for his patients. Dr. Bansal's expertise extends to reconstructive surgery, particularly for patients who have suffered significant facial injuries or undergone surgeries that have left facial deformities. Reconstructive surgeries may be needed for patients who have experienced trauma, burns, cancer treatments, or birth defects. The goal of reconstructive surgery is to restore both the function and aesthetic appearance of the affected areas. With his profound knowledge of facial anatomy and surgical precision, Dr. Bansal offers reconstructive procedures that help restore the patient's facial features and improve their quality of life. These surgeries not only aim to restore normal function (such as eating, speaking, and breathing) but also focus on improving the patient's appearance, which can greatly boost self-esteem and confidence. In addition to functional procedures, Dr. Bansal also provides cosmetic facial surgery for patients seeking to improve their facial appearance. Whether through corrective surgery for facial features or advanced facial aesthetic procedures, he employs the latest

techniques to achieve natural and harmonious results. Some common procedures include facial contouring, facial implants, and lip augmentation. His focus on aesthetics ensures that every surgery is customized to meet the individual needs of each patient, providing results that not only enhance appearance but also promote self-confidence. Dr. Bansal treats patients with Temporomandibular Joint (TMJ) disorders, which affect the jaw joint and muscles that control jaw movement. TMJ disorders can cause pain, discomfort, and difficulty with jaw movement, affecting a person's ability to eat, speak, or even smile properly. Dr. Bansal provides both non-surgical and surgical solutions for TMJ, ensuring the best possible treatment for pain relief and restoring proper jaw function. Dr. Ankush Bansal's practice revolves around providing patient-centred care, ensuring that every patient feels understood, valued, and comfortable. From the moment a patient walks into his clinic, they are met with a warm and welcoming environment where their concerns are heard and their questions answered. Dr. Bansal takes the time to explain the procedures in detail, helping patients understand the benefits, risks, and expected outcomes of their treatments. His approach to treatment is highly personalized. He works with each patient to create a comprehensive plan that is tailored to their specific needs and health goals. Whether it is a cosmetic procedure or complex reconstructive surgery, Dr. Bansal ensures that his patients receive the highest standard of care, to restore both function and aesthetic appearance. Dr. Ankush Bansal is dedicated to continuous learning and staying at the forefront of developments in oral and maxillofacial surgery. He is an active member of various professional organizations, which allows him to stay up to date with the latest research, techniques, and technologies in his field. Dr. Bansal's commitment to excellence ensures that he provides his patients with the best possible treatment options, backed by the latest innovations in surgical practice. Dr. Ankush Bansal is a distinguished Oral and Maxillofacial Surgeon, specializing in oral surgery, maxillofacial prosthetics, reconstructive surgery, and cosmetic facial surgery. His wealth of experience, advanced training, and patient-centric approach have earned him a stellar reputation in the field of oral and maxillofacial surgery. Whether it is a routine dental procedure or a complex reconstructive surgery, Dr. Bansal offers personalized, high-quality care to help patients restore and improve their oral and facial health. For those seeking expert care in oral and maxillofacial surgery, Dr. Ankush Bansal provides a reliable and trusted solution, ensuring that each patient receives the highest standard of care, attention, and compassion. With a focus on both functional and aesthetic outcomes, Dr. Bansal helps his patients achieve optimal results, whether it is for treating an oral condition, recovering from trauma, or enhancing facial appearance.
