

DR. ROLY SRIVASTAVA

Consultant - Radiologist

Qualification

MBBS | DNB

Overview

Dr. Roly Srivastava is an experienced Consultant in the Department of Radiology & Imaging at Manipal Hospitals, Dwarka, New Delhi. With a medical background that includes an MBBS and a Diplomate of National Board (DNB) in Radiology, she specialises in the accurate interpretation of medical imaging to assist clinicians in making precise diagnoses. Dr. Srivastava's expertise spans a wide range of imaging modalities including Digital X-rays, Ultrasound, Mammography, CT (Computed Tomography), and MRI (Magnetic Resonance Imaging). She is particularly skilled in advanced diagnostic techniques, cross-sectional imaging, and has a keen interest in women's imaging and oncologic radiology. Having been part of reputed medical institutions and diagnostic centres in the past, Dr. Srivastava brings with her a patient-centric approach, combining technology with clinical insight. She is committed to maintaining high standards in diagnostic accuracy, timely reporting, and collaborative treatment planning with multidisciplinary teams. Her proficiency in both English and Hindi ensures effective communication with a diverse set of patients and clinicians. She has also contributed to academic radiology through research papers and participation in national radiology conferences. At Manipal Hospitals, Dr. Srivastava is part of a cutting-edge Radiology Department equipped with the latest in diagnostic imaging, including 3-Tesla Digital MRI, 128-slice CT scanner, high-end 3D/4D Ultrasound systems, and digital mammography units. She also supports interventional radiology procedures in coordination with clinical teams for guided therapies and minimally invasive interventions. Dr. Roly Srivastava is known for her clinical precision, compassionate approach, and dedication to using radiological science to improve patient outcomes.
