

DR. AAYUSHI RATHORE

Associate Consultant -Obstetrics and Gynaecology

Qualification

MBBS | MS | DNB | MRCOG (London, UK)

Overview

Dr. Aayushi Rathore is a highly qualified and experienced Obstetrician and Gynaecologist based in Delhi, India, renowned for her commitment to women's health and her exemplary academic background. She completed her MBBS at the prestigious Lady Hardinge Medical College, Delhi, and pursued a Master of Surgery (MS) at UCMS and GTB Hospital, Delhi, further enhancing her credentials with an MRCOG degree from London, UK—an internationally recognised distinction. Dr. Aayushi's expertise encompasses the complete spectrum of women's health, with specialisation in managing high-risk pregnancies, infertility, hysteroscopy, minimally invasive gynaecological surgeries, and the management of complex gynaecological disorders, including fibroids, endometriosis, and PCOS. Her extensive clinical experience stems from service at leading government hospitals such as VMMC and Safdarjung Hospital, as well as Manipal Hospital, strengthening her hands-on approach in both routine and critical care. Adept at both open and advanced minimally invasive procedures, Dr. Aayushi is recognised for her surgical precision, thorough understanding of the intricacies of obstetric and gynaecological care, and her commitment to the latest therapeutic techniques. She has successfully managed numerous high-risk deliveries and complex surgical cases, blending evidence-based medicine with compassionate patient care. Her dedication to advancing medical knowledge is demonstrated through numerous national and international research publications. As an active member of esteemed professional bodies—including AOGD, FOGSI, DGF, IFS, and NIGF—she remains at the forefront of medical innovation and collaborative care. Dr. Aayushi's patient-centred approach, combined with her depth of experience and passion for excellence, has earned her the trust of countless women and families across Delhi. She continues to provide holistic, personalised care, ensuring the highest standards of safety, confidentiality, and clinical outcomes for every patient.
