

DR. (PROF) VIRENDER KUMAR GEHLAWAT

Consultant Paediatrics & Head PICU

Qualification

MBBS | MD

Overview

Dr. (Prof.) Virender is a distinguished and compassionate pediatrician based in Delhi, with extensive clinical and academic experience in pediatric medicine. Dr. Virender is proficient in diagnosing and managing a wide range of acute and chronic pediatric conditions. His areas of expertise include common childhood infections, seizures, acute abdomen, trauma cases, and complex congenital heart diseases. He also manages chronic conditions such as asthma, allergies, growth and nutritional disorders, and developmental delays. In addition to providing preventive care through immunizations and routine health monitoring, Dr. Virender offers comprehensive guidance to parents on nutrition, hygiene, behavioral issues, and long-term care strategies. His approach focuses on early detection, accurate diagnosis, and personalized treatment plans for each child. Trained in Advanced Life Support (ALS) and skilled in neonatology, Dr. Virender is well-equipped to handle pediatric emergencies with precision and calm. He frequently collaborates with specialists including pediatric surgeons, neurologists, and dietitians to ensure holistic, multi-disciplinary care tailored to each young patient's needs. A strong advocate of medical ethics, he maintains detailed electronic medical records (EMR), ensures patient confidentiality, and adheres strictly to informed consent practices. Dr. Virender is actively involved in departmental quality reviews, community outreach programs, and Continuing Medical Education (CME) to remain updated on the latest evidence-based pediatric protocols. Fluent in both Hindi and English, Dr. Virender is known for his patient, friendly demeanor and ability to build immediate rapport with children and their families. He regularly participates in public health awareness events organized by Manipal Hospital, where he educates the community on child health, busts common myths, and promotes science-based approaches to pediatric care. The trust and appreciation he has received from families across the region are a testament to his unwavering commitment, medical excellence, and empathetic patient care.
