

DR. RUPA BANERJEE

Consultant - Paediatrics Surgeon

Qualification

MBBS | DrNB Pediatric Surgery

Overview

Dr. Rupa Banerjee is a Consultant in the Department of Paediatrics at Manipal Hospitals E.M. Bypass, Kolkata. She combines her stellar surgical expertise with profound compassion to provide comprehensive care for children. Trained at the prestigious Sir Ganga Ram Hospital, New Delhi, and armed with a wealth of experience across renowned institutions, Dr. Banerjee has established herself as a leading pediatric surgeon in Kolkata. Her clinical acumen spans a diverse array of specialities, including neonatal emergencies, pediatric urology, oncology, and thoracic and laparoscopic surgeries, addressing complex urogenital anomalies and critical congenital conditions. Throughout her career, Dr. Banerjee has handled thousands of challenging cases, earning the trust of families and peers alike. Her professional milestones include positions at top hospitals. Her surgical repertoire encompasses neonatal interventions such as anorectal malformations, Hirschsprung's disease, esophageal atresia, and diaphragmatic hernias, as well as pediatric urology procedures for conditions like hypospadias, renal anomalies, and vesicoureteral reflux. In the realm of pediatric oncology, she has addressed solid tumours with precision, while her expertise in thoracic and laparoscopic surgeries continues to set benchmarks in pediatric care. Dr. Banerjee's dedication to academic excellence is reflected in her numerous accolades, including the Dr. J.M. Sengupta Memorial Award, Ravi K. Jerath Award, and multiple recognitions for best papers and posters at national and state-level conferences. Her research contributions have advanced the understanding of pediatric surgical outcomes, particularly in neonatal and urological surgery. She is a member of the Indian Association of Pediatric Surgery and an executive member of the Society for Pediatric Urology, representing the next generation of innovators in her field. Her career is further enriched by active participation in live operative workshops, CMEs, and collaborative rounds at esteemed institutions. With special interests in pediatric urology and laparoscopic procedures, she continues to refine her skills, ensuring her young patients receive care.
