

DR. ANURAG SHRIKANT LAVEKAR

Consultant - Medical Gastroenterology & Hepatology

Qualification

MBBS | MD (General Medicine) | DM (Medical Gastroenterology & Hepatology)

Overview

Dr. Anurag Shrikant Lavekar is an experienced gastroenterologist in Bangalore. He is currently practising as a Consultant - Medical Gastroenterology & Hepatology at Manipal Hospital Jayanagar, Bangalore. Dr. Lavekar is known for his expertise in the diagnosis, treatment, and management of a wide spectrum of gastrointestinal and liver diseases, with a special focus on advanced endoscopic interventions. He is the best gastroenterologist in Jayanagar. He earned his MBBS from Government Medical College, Maharashtra, followed by an MD in General Medicine from NKP Salve Institute of Medical Sciences, Nagpur. He further pursued a DM in Medical Gastroenterology and Hepatology from JSS University, Mysore, between 2016 and 2019. Over the years, he has gained rich experience working in some of the country's leading medical institutions and has successfully managed a wide spectrum of gastrointestinal and liver disorders in both acute and chronic care settings. Over the course of his career, Dr. Lavekar has built extensive experience across various roles, combining academic medicine with high-volume clinical practice. He has served as an Assistant Professor, where he contributed to both postgraduate teaching and patient care. His core areas of expertise include gastrointestinal endoscopy, hepatology, ERCP, EUS, and advanced endoscopic interventions. He is adept at managing a wide range of gastroenterological conditions, including GI bleeding, hepatobiliary disorders, inflammatory bowel disease, chronic liver diseases, and gastrointestinal cancers. With over 12,000 OGDscopies, 3,000 colonoscopies, and 1,000 sigmoidoscopies performed, Dr. Lavekar has a proven track record in high-volume endoscopic practice. He has also executed 900 endoscopic variceal ligations, 150 foreign body removals from the gastrointestinal tract, 100 polypectomies, and multiple advanced interventions such as glue injections, argon plasma coagulation, hemoclippping, pneumatic dilatation for achalasia cardia, and luminal stenting. Dr. Anurag Lavekar's ERCP experience includes 325 procedures, while his EUS expertise covers both diagnostic work and complex interventions like cystogastrostomies. He also has formal training in EUS and is keen on advancing his skills further, with a growing interest in hepatology-focused research and treatments. Academically, Dr. Lavekar has made significant contributions to gastroenterology research, with 30 scientific publications to his credit, 20 original articles and 10 case reports, published in reputed national and international journals. He has also presented numerous cases, posters, and papers at prestigious state and national conferences, earning recognition for his contributions to medical science. Beyond his clinical and academic accomplishments, Dr. Lavekar actively engages in continuing medical education and participates in professional forums to keep abreast of the latest developments in gastroenterology and hepatology. His ability to communicate fluently in English, Hindi, and Marathi enables him to effectively connect with patients from diverse backgrounds, ensuring they receive empathetic, personalised, and clear guidance about their medical conditions and treatment options.
