

DR. GIRIDHAR VENKATESH

Consultant - Urology

Qualification

MBBS | MS Gen Surgery | MCh Urology

Overview

Dr. Giridhar Venkatesh is a top urologist in Bangalore. He is currently practising as a Consultant - Urology at Manipal Hospital Kanakapura Road. Dr. Giridhar brings over 15+ years of clinical and surgical expertise in Urology, strongly emphasising endourology, laparoscopic urology, urogynecology, kidney transplantation, and robotic urological procedures. He carries an empathetic approach to treatment, deep clinical insight, and dedication to surgical innovation, making him one of the most respected urologists in Bangalore. Dr. Giridhar's academic foundation includes an MBBS from Bangalore Medical College, an MS in General Surgery from the All India Institute of Medical Sciences (AIIMS), and an MCh in Urology from Kasturba Medical College, Manipal University. He has undergone specialised training in flexible ureteroscopy and advanced laser prostatectomy, including HoLEP (Holmium Laser Enucleation of the Prostate) and ThuLEP (Thulium Laser Enucleation of the Prostate), both of which are minimally invasive techniques that offer excellent outcomes for patients with enlarged prostates. As a leading urologist, Dr. Giridhar Venkatesh is adept at diagnosing and managing a broad spectrum of urological conditions, including complex kidney stone disease, urologic cancers (kidney, bladder, prostate, and testicular cancers), benign prostatic hyperplasia (BPH), urinary incontinence, and reconstructive urology. He also manages female pelvic floor disorders, urinary incontinence, and other bladder-related dysfunctions. In addition to his surgical excellence, Dr. Giridhar has played a pivotal role in developing and advancing kidney transplantation programs and minimally invasive surgical techniques. At Manipal Hospital Kanakapura Road, he contributes significantly to transplant urology and manages pre-operative evaluation, transplant surgeries, and long-term post-operative care. He also offers advanced laparoscopic and robotic surgeries for urologic cancers, providing patients with the benefits of faster recovery, minimal scarring, and reduced complications. His approach is centred on evidence-based treatment protocols and individualised care plans prioritising patient safety, comfort, and dignity. Whether treating children with congenital urological anomalies or elderly patients with prostate or bladder issues, Dr. Giridhar ensures that every case is handled with clinical precision and empathetic communication. Dr. Giridhar remains active in academic and research pursuits. He has authored peer-reviewed publications and actively participates in national and international urology forums. He is a member of associations including the Urological Society of India (USI), Association of Southern Urologists (ASU), and the International Continence Society (ICS). Dr. Giridhar speaks Kannada, English, and Hindi, enabling him to connect with a diverse patient base.
