

DR. DAYANANDA L

Consultant - Interventional Radiology

Qualification

MBBS | DNB | PDCC

Overview

Dr. Dayananda. L is an experienced interventional radiologist in Bangalore. He is currently practising as a Senior Consultant – Interventional Radiology at Manipal Hospitals, Kanakapura Road. With over 20+ years of experience in diagnostic and interventional radiology, especially onco-interventions, Dr. Dayananda brings exceptional clinical expertise and a patient-focused approach to his practice. His areas of specialization include diagnostic angiograms, chemoembolization, radioembolization, nephrostomies, biliary stenting, and uterine artery embolization. He is an experienced Interventional Radiologist in Kanakapura Road. Besides being an MBBS graduate from Al-Ameen Medical College, Bijapur (Karnataka University), Dr. Dayananda holds a DNB in Radio Diagnosis from Amrita Institute of Medical Sciences & Research Center, Cochin and a Post-doctoral Certificate Course (PDCC) in Cardiovascular and Neuroradiology from Sree Chitra Tirunal Institute for Medical Sciences & Technology, Trivandrum. Over the years, he has consistently demonstrated proficiency in various interventional procedures, with a special interest in onco- intervention, vascular access, and hepatobiliary interventions. His expertise further expanded with various specialized training programs, including Radiation Protection in Radiology, Kuwait, an Image Guided Ablation Training Course at SAMSUNG Medical Center, a Radioembolization Master Class Course in Singapore, and a PICC Training Program in China. He also pursued advanced skills in interventional radiology through an International Fellowship Program On Chemoembolization at Seoul National University in 2016. He continues adopting cutting-edge technologies and best practices to offer safe, effective, evidence-based treatments. His commitment to safety, accuracy, and innovation ensures that patients receive the highest standard of interventional care. Dr. Dayananda performs a broad spectrum of image-guided diagnostic and therapeutic procedures with high precision. He is skilled in image-guided tumour ablations, including radiofrequency ablation (RFA) of liver and lung lesions. His detailed knowledge of vascular and non-vascular interventions allows him to offer minimally invasive solutions that improve outcomes and reduce patient recovery times. In addition to his interventional expertise, Dr. Dayananda is proficient in cross-sectional imaging, including MRI, CT, ultrasound, and Doppler studies. He performs high-resolution CT scans, MR angiography, neuroimaging, and musculoskeletal studies, contributing to accurate diagnoses and comprehensive care. Dr. Dayananda has contributed to several research papers and scientific presentations as a committed academician. He has more than 25+ publications as a first author. He also participates in national and international radiology conferences and is interested in clinical research. His clinical focus extends beyond procedure-based excellence. By combining empathetic communication with clinical precision, he ensures a stress-free and informed experience for every patient. Dr. Dayananda consistently integrates clinical excellence with a compassionate, human touch, making even the most advanced procedures feel seamless and reassuring for his patients. Fluent in Kannada, English, Hindi, and Malayalam, he is known as one of the best radiologists in Kanakapura.
