

DR. SHAMITH G V

Consultant - Anaesthesiology

Qualification

MBBS | DA | DNB | Fellowship in liver transplant and Hepato-Biliary Anaesthesia

Overview

Dr. G V Shamith is a top anaesthesiologist in Bangalore, practicing as a Consultant - Anaesthesiology at Manipal Hospital Kanakapura Road. With his core focus being safely administering anaesthesia for complex, high-risk surgical procedures, Dr. Shamith has expertise in anaesthesia for liver transplant, cardiac anaesthesia, obstetric anaesthesia, and robotic-assisted procedures. With a strong academic background that includes an MBBS, DA, DNB, and a Fellowship in Liver Transplant and Hepatobiliary Anaesthesia, he brings a high level of clinical precision and patient safety to perioperative care. With additional training in robotic and minimally invasive surgeries, Dr. Shamith provides anaesthetic support for technologically advanced procedures, ensuring faster recovery times, minimal invasiveness, and enhanced surgical precision. He integrates his evidence-based practice with state-of-the-art technology to minimise complications and support fast-track recovery protocols. Dr. Shamith's proficiency in managing anaesthesia during liver transplant surgeries is marked by his meticulous attention to intraoperative hemodynamic stability, fluid and electrolyte balance, and close monitoring of liver-specific parameters. His work plays a pivotal role in the success of liver transplantations and optimising postoperative recovery for recipients. Dr. Shamith is also a trusted expert in cardiac anaesthesia, ensuring comprehensive care for patients undergoing cardiac surgeries. His ability to manage intricate cardiovascular dynamics, utilise advanced hemodynamic monitoring, and deliver anaesthesia tailored to complex cardiac conditions ensures safe outcomes in bypass surgeries, valve replacements, and interventional cardiac procedures. Another area of his specialisation is obstetric anaesthesia, where Dr. Shamith is dedicated to the safety and comfort of mothers and newborns. He is well-versed in providing epidural and spinal anaesthesia for labour and cesarean deliveries, handling high-risk pregnancies, and managing obstetric emergencies with skill and composure. He works closely with obstetricians to develop tailored anaesthetic plans prioritising maternal and fetal health. Dr. Shamith is also deeply involved in maintaining hospital-wide quality standards. He actively participates in NABH, JCI, and infection control initiatives within the institution, promoting safe, ethical, and standardised care practices. His contributions ensure that every anaesthetic protocol follows international safety norms and quality benchmarks. Dr. G V Shamith speaks Kannada, Hindi, English, Tamil, Telugu, and Marathi, enabling him to interact effectively with a diverse patient population across linguistic and cultural backgrounds.

Fellowship & Membership

- AOA
- LITCARS

Field of Expertise

- Liver transplant
- Cardiac anaesthesia

- Robotic and obstetrics

Languages Spoken

- Kannada
- Hindi
- English
- Tamil
- Telugu
- Marathi

Awards & Achievements

- Best outgoing student, DNB Fortis group of hospitals, NABH SAFE I
- Active participation in JCI certification in RIMC.
