

DR. MANOJ KUMAR KHEMANI

Consultant - Orthopaedics

Qualification

MBBS | Diploma (Orthopaedics) | MS (Orthopaedic) | MCh (Orthopaedics)

Overview

Dr. Manoj Kumar Khemani is an experienced orthopaedic at Manipal Hospitals, Mukundapur, Kolkata, with over 15 years of expertise. His skills cover various orthopaedic domains, including surgeries for joint replacements, complex trauma cases, Arthroscopy procedures, and sports injury management. Additionally, he has a dedicated focus on general and elderly orthopaedic care, particularly addressing osteoporosis-related challenges. He is the Best Ortho Doctor in Kolkata. Dr. Manoj Kumar Khemani is an esteemed member of several notable medical associations, including the Indian Medical Association, Indian Orthopaedic Association, and West Bengal Orthopaedic Association. Dr. Khemani's commitment extends to holding life memberships in key organisations such as the Trauma Society of India, the Indian Arthroscopy Society, the West Bengal Arthroplasty Society, and the Kolkata Arthroscopy & Sports Surgery Society, among others. With a track record of treating over 25,000 patients successfully, Dr. Khemani's academic journey started at B. S. Medical College, Calcutta University, and continued with specialised orthopaedic training at Dr. D. Y. Patil Medical College in Pune. His academic credentials include an MS in Orthopaedics from Texila American University and an MCh Ortho degree from the University of Seychelles. Dr. Khemani's commitment to staying updated with the latest advancements in orthopaedics is evident from his completion of an Advanced Trauma Life Support course from AIIMS. Furthermore, Dr. Khemani enhanced his skills through a Fellowship in Arthroplasty at Nanavati Hospital in Mumbai and Sunshine Hospital in Hyderabad. This additional training has strengthened his ability to provide advanced orthopaedic care, making him a highly sought-after professional in the field. His dedication to community service is demonstrated through organising free medical camps, where he extends essential care to underprivileged patients, showcasing his commitment to improving healthcare accessibility and addressing the needs of marginalised individuals.
