

DR. AMULYA K G

Consultant - Obstetrics and Gynecology

Qualification

MBBS | MD (OBG)-PGIMER | DNB | FMAS | DMAS

Overview

Dr. Amulya K G - Consultant - Obstetrics and Gynaecology Dr. Amulya K G is a renowned OBG specialist in Mysuru. She is currently practicing as a Consultant - Obstetrics and Gynaecology at Manipal Hospital, Mysuru. With five years of experience, Dr. Amulya brings expertise in managing high-risk pregnancies, infertility, and minimally invasive gynecological surgeries. She is known for her compassionate care and commitment to women's health across various stages of life. Dr. Amulya holds an MBBS from Government Mysore Medical College and Research Institute, Karnataka. She completed her MD in Obstetrics and Gynaecology from the prestigious Postgraduate Institute of Medical Education and Research (PGIMER) in Chandigarh. Her academic background is complemented by a Diplomate of National Board (DNB) certification from New Delhi. In addition, she has obtained specialized training in Minimal Access Surgery, earning her FMAS and DMAS credentials from the World Laparoscopy Hospital. Her clinical experience includes managing complex conditions such as pregnancy complications related to anemia, hypertension, diabetes, and autoimmune disorders. Dr. Amulya specializes in the treatment of multiple pregnancies, placenta previa, and recurrent abortions, ensuring safe and effective care for expecting mothers. Her commitment to high-risk pregnancy management extends to comprehensive antenatal care, pre-conception counseling, and postpartum support. Dr. Amulya's approach prioritizes preventive care, aiming to reduce complications and improve maternal and fetal outcomes. Dr. Amulya is skilled in performing both normal and Caesarean deliveries and offers VBAC (Vaginal Birth After Cesarean) options where appropriate. Her surgical expertise spans laparoscopic and robotic gynecological procedures, providing less invasive options for conditions like ovarian cysts, fibroids, and menstrual irregularities. She also conducts gynecological malignancy screenings and offers medical and surgical treatment for menstrual disorders. Additionally, she provides counseling on adolescent and menopausal health, with a focus on long-term wellness. Beyond her clinical work, Dr. Amulya is actively involved in professional organizations, including the World Association of Laparoscopic Surgeons (WALS). She stays current with advancements in her field by attending seminars, conferences, and workshops. Her commitment to continuous learning strengthens her ability to provide quality care. Dr. Amulya speaks English, Hindi, and Kannada, which allows her to connect effectively with a diverse patient base. Her patient-centered approach and fluency in multiple languages make her accessible and relatable to patients and their families.
