

DR. BHANU PRASAD

Emergency Specialist

Qualification

MBBS (UK) | MRCEM (UK)

Overview

Dr. Bhanuprasad is an accomplished Emergency Physician with a rich background spanning 17 years in the field. Armed with an MBBS degree and MRCEM (UK) certification, he possesses a wealth of experience in managing a wide spectrum of medical and surgical emergencies, trauma cases, and toxicological emergencies. He is the foremost emergency medicine specialist in Old Airport Road. With an additional decade-long focus on surgical emergencies and trauma, Dr. Bhanuprasad has honed his skills in diagnosing and effectively managing critical conditions, ensuring the best possible outcomes for his patients. His expertise extends to resuscitation techniques and disaster management, making him a vital asset in high-pressure situations where every second counts. Dr. Bhanuprasad's commitment to community welfare is evident through his active involvement in raising awareness and providing training in cardiopulmonary resuscitation (CPR). By empowering individuals with life-saving skills, he contributes significantly to enhancing community resilience and preparedness in emergency situations. As a member of esteemed bodies in emergency medicine, including the Royal College of Emergency Medicine and the Society of Emergency Medicine India, Dr. Bhanuprasad stays abreast of the latest developments and best practices in his field. His affiliation with the American Heart Association as a faculty member underscores his dedication to advancing medical education and improving patient care standards. Through his extensive experience, clinical acumen, and unwavering commitment to excellence, Dr. Bhanuprasad emerges as a trusted authority in emergency medicine. His holistic approach to patient care, coupled with his leadership in training and community engagement, underscores his pivotal role in promoting health and safety within society. He is an expert in diagnosing and managing surgical and medical emergencies, resuscitation, trauma and disaster management, management toxicological (poisoning) emergencies, managing musculoskeletal trauma, etc.
