

DR. MIR SUJATH ALI

Consultant - Dental Medicine

Qualification

BDS | MDS - Implantology (UK)

Overview

Dr. Mir Sujath Ali is a well-known dentist with experience of practising for over 25 years. He is currently associated with the Manipal Hospitals, Old Airport Road, Bangalore as a Consultant in Dental Medicine. He is also available for consultation at Manipal Northside Hospital (Bangalore). Dr. Mir Sujath Ali is an adept dentist providing outstanding dental care to his patients for the past two decades. He graduated with a Bachelor of Dental Surgery (BDS) from S. N. Dental College, Gulbarga, in 2001 and later on, pursued a Master's in Dental Surgery with a specialisation in Implantology from the UK. He also completed his MDS in Conservative Dentistry & Endodontics from Bapuji College of Dental Sciences, Davangere, in 2003. Dr. Ali is a fellow of the Indian Dental Association and a member of the Indian Endodontic Society. He is an expert in smile design, aesthetic dentistry, apicoectomy and cyst enucleation, root canal treatment, post and core buildups, dental implants (Full and single mouth rehabilitation), complete and partial dentures, aesthetic crown and bridges, tooth extraction, scaling and polishing, dental restorations, and teeth whitening. Dr. Ali is also skilled in many languages, making it easy for him to speak with his patients. He is adept at speaking English, Kannada, and Hindi. Dr. Ali is the best dentist in Bangalore. Dr. Ali is known for his expertise in the endodontic field and was recognised for the best paper presentation at the National Conference organised by the Indian Endodontic Society in 2001. He is a devoted dentist who strives to provide his patients with the best dental care. He has dedicated his life to helping people with dental care, and all have highly appreciated his services. His passion and commitment to this field have earned him countless awards and accolades. Dr. Ali is diligent, hardworking, and committed to making a difference in the lives of people who seek his help. He has communicated his expertise with the public through multiple talks and publications. He has published in International and National Journals. He also published an article in the journal of the Indian Dental Association in 2003 about how to use different treatment regimens to evaluate the bond strength of composite dentin. In the same year, he published another article in the journal of Perri-forwards Academy regarding the procedure of Aesthetic re-attachment of fractured teeth using composite. Dr. Mir Sujath Ali is highly regarded for his exceptional patient care and diagnosis. He provides one of the best consultations in Dental Medicine with maximum empathy. He is popular amongst many patients. For patients considering expert dental consultation, Dr. Ali can be contacted at the Manipal Hospitals, Old Airport Road.
