HOD & Consultant - Nuclear Medicine

Qualification

MBBS | DRM | DNB | MNAMS | UICC ICRTT | Fellowship in PET CT (University of Pennsylvania, USA)

Overview

Dr. R V Parameshwaran is a Distinguished Nuclear Medicine Physician at Manipal Hospital, Old Airport Road, Bangalore. He's been practising at Manipal Hospital for over 23 years and is a highly respected physician. Dr R V Parameshwaran's a board-qualified physician in the nuclear medicine field and has gained extensive knowledge and experience throughout his career. He completed his MBBS, DRM and DNB studies at the National Board of Examinations, New Delhi. His expertise is in the field of radionuclide therapy and PET-CT. He possesses one of the essential skills of a good doctor, constantly vigilantly documenting details about a patient's diagnosis and health progress. Dr. R V Parameshwaran explains the medical process to the patient and answers questions. He takes all safety precautions to protect himself and his patient from unnecessary radiation exposure. Prepares radiopharmaceuticals and administers them to patients. Maintains and operates imaging equipment. Keep records of procedures. Follow proper radiation disposal procedures. For the same reason, he is considered the top nuclear medicine physician in Bangalore. Despite his hectic schedule, Dr. Parameshwaran's agility to deal with multiple situations at ease with great effectiveness. His multi-tasking skills help him with coordinating with his patients and burdensome paperwork. He can react quickly and accurately in an emergency without being overwhelmed with emotions. In addition to being organised, he has an excellent memory of remembering each patient's unique situation and prescribed treatment. He effectively connects and communicates with patients and their families regardless of origin or experience. He has excellent communication skills, with excellent social skills. He is also organised and detail-oriented in all kinds of tasks. A solid work ethic of his team members is one of his great qualities. Dr. R V Parameshwaran is also a member of the American Nuclear Society's International Advisory Board. Additionally, he belongs to the Indian Society of Nuclear Medicine, the European Society of Nuclear Medicine, and the Indian Society of Nuclear Medicine Physicians. He received his 2022 Best Young Investigator Award from the US Indo-American Society of Nuclear Medicine. "KidWye does not have a leading PET-CT scanner for cancer detection," he told reporters, adding that he was a caring professional who could work well in teams. The fact that he is proficient in several languages, including Hindi, English, Kannada, Tamil, and Malayalam, aids him in treating his patients effectively and preserving their pluripotency. Additionally, he has won the Nuclear Medicine Society Award twice and served on the board of the Association for Nuclear Medicine of India (ANMPI).
