

## DR. V RAKESH REDDY

Consultant - HPB & Liver and Pancreatic Transplant Anaesthesia

### Qualification

MBBS | MD (Anaesthesiology)

### Overview

Dr. V Rakesh Reddy is a highly skilled cardiac and liver anaesthesiologist in Old Airport Road, Bangalore. He is currently practising as a Consultant - HPB & Liver and Pancreatic Transplant Anaesthesia at Manipal Hospitals Old Airport Road, Bangalore, bringing over a decade of specialised expertise in perioperative care, cardiac anaesthesia, liver transplant anaesthesia, and critical care management. Renowned for his precision, clinical acumen, and patient-focused approach, Dr. Reddy is considered among the best cardiac anaesthesiologists in Bangalore, offering advanced anaesthetic care for complex cardiac surgeries, liver transplants, and high-risk surgical procedures. Dr. Reddy completed his MBBS, followed by an MD in Anaesthesia from a renowned Medical College, Mangalore, under Manipal University. He further honed his expertise through a Fellowship in Cardiac Anaesthesia from Bangalore, gaining extensive hands-on experience in both adult and paediatric cardiac surgeries, transoesophageal echocardiography (TEE), and perioperative critical care. He has also undertaken observership training in liver transplant anaesthesia at a renowned College Hospital, London, where he refined his skills in intraoperative management of liver transplant recipients and donors. Throughout his career, Dr. Reddy has demonstrated a profound ability to manage high-risk surgical patients, including those undergoing cardiac procedures, hepatic surgeries, and complex oncology interventions. His clinical expertise encompasses intraoperative anaesthesia, perioperative critical care, ultrasound-guided regional nerve blocks, and extracorporeal membrane oxygenation (ECMO) initiation in critical care scenarios. His meticulous approach ensures optimal outcomes during both routine and highly specialised procedures, making him a sought-after specialist for patients requiring advanced cardiac and liver anaesthetic care. At Manipal Hospitals Old Airport Road, Bangalore, Dr. Reddy leads the perioperative management of cardiac surgical patients, HPB and liver transplant cases, and other high-complexity procedures. His role extends beyond the operating theatre, encompassing preoperative risk assessment, optimisation of comorbid conditions, and postoperative critical care management. Dr. Reddy's expertise in ECMO and advanced perioperative techniques allows him to provide lifesaving support for patients in critical conditions, while his proficiency in TEE ensures accurate real-time assessment of cardiac function during complex surgeries. Dr. Reddy has also made significant academic contributions. He has co-authored publications in prominent journals, contributed chapters in clinical anaesthesia textbooks, and presented research findings at national conferences such as the Institute of Liver and Biliary Sciences, New Delhi, and the LTSI mid-term meet. His research and clinical work focus on perioperative cardiac and liver anaesthesia, stress cardiomyopathy post-liver transplant, and innovative approaches to high-risk anaesthesia management. Fluent in English, Hindi, Telugu, and Kannada, Dr. Reddy is known for his empathetic patient communication and collaborative approach with surgical teams. Combining meticulous technical skill with a compassionate and methodical patient care philosophy, he is recognised as one of the best cardiac anaesthesiologists in Bangalore, trusted by patients and referring physicians alike. His practice seamlessly integrates cutting-edge clinical techniques with personalised care, ensuring that patients undergoing complex cardiac and liver surgeries receive the highest standards of safety and comfort.

### Fellowship & Membership

- Fellowship in Cardiac Anaesthesia from Narayana Hrudayalaya, Bangalore, gaining extensive hands-on

experience in both adult and paediatric cardiac surgeries, transoesophageal echocardiography (TEE), and perioperative critical care.

## Field of Expertise

- Perioperative Transesophageal echocardiography.
- Comprehensive Pre-op evaluation and assessment of patients undergoing HPB surgery and Transplant.
- Expertise in peri-operative management of complicated and high risk patients undergoing Transplant.
- Speedy recovery of patients because of Enhanced Recovery protocols and targeted management of Post operative care in ICU and ward.
