

DR. RANBIR CHOWDHARY

Senior Consultant - Internal Medicine

Qualification

MBBS | MD (General Medicine) | MRCP (UK) | Fellow of Royal College of Physicians

Overview

Dr. Ranabir Chowdhury is a highly respected Senior Consultant in Internal Medicine at Manipal Hospital, Saltlake, known for his meticulous diagnostic approach, compassionate patient care, and extensive expertise in managing a wide spectrum of medical conditions. With years of clinical experience, he has established himself as a dependable physician who blends scientific precision with a patient-first philosophy. Dr. Chowdhury's expertise covers the comprehensive management of both acute and chronic medical conditions, including diabetes, hypertension, thyroid disorders, infectious diseases, respiratory illnesses, gastrointestinal disorders, cardiovascular risk management, and lifestyle-related metabolic disorders. He is also adept at handling complex, multi-system conditions that require careful evaluation and long-term follow-up. A strong advocate of evidence-based medicine, Dr. Chowdhury's approach begins with a detailed assessment of medical history, precise diagnostic investigations, and thoughtful interpretation of symptoms. His ability to identify subtle clinical clues and correlate them with modern diagnostic tools allows him to arrive at accurate diagnoses, even in challenging cases. This has earned him the trust of patients seeking clarity and reassurance in their health journeys. At Manipal Hospital Saltlake, Dr. Chowdhury plays a vital role in providing multidisciplinary care. He seamlessly collaborates with specialists from cardiology, nephrology, neurology, gastroenterology, endocrinology, and critical care to deliver holistic treatment for patients with complex medical needs. His well-coordinated approach ensures continuity of care, faster recovery, and long-term disease control. Patients value Dr. Chowdhury for his calm demeanor, attentive listening skills, and clear explanations regarding diseases and treatment plans. He emphasizes preventive healthcare, encouraging regular health screenings, vaccination, lifestyle modification, and proactive risk management to avoid long-term complications. His focus on patient education empowers individuals to take informed decisions and adopt healthier habits. Committed to continuous learning, he stays updated with the latest developments in internal medicine, participating in medical conferences, academic discussions, and clinical research initiatives. This ongoing professional enrichment allows him to integrate the most advanced and effective treatment protocols into his practice. Through his dedication, clinical excellence, and empathetic care, Dr. Ranabir Chowdhury stands as a trusted name in Internal Medicine at Manipal Hospital Saltlake, guiding patients toward better health and improved quality of life.
