MBBS | MD (Internal Medicine) | DTCD (TB and Chest) | HERMES | DIPLOMATE

Overview

Dr. Soumya Das is a highly skilled and respected Pulmonologist at Manipal Hospital, Salt Lake, known for his expertise in managing a wide range of respiratory, sleep-related, and critical care conditions. With years of focused experience in Pulmonology, he has earned a reputation for providing accurate diagnoses, evidence-based treatments, and compassionate care to patients dealing with acute and chronic respiratory illnesses. His dedication to clinical excellence and patient well-being makes him one of the most trusted specialists in the region. Dr. Das's strong academic foundation and advanced training in Pulmonary Medicine have equipped him with extensive knowledge of lung physiology, respiratory disorders, and modern therapeutic approaches. He is proficient in diagnosing and treating conditions such as asthma, COPD, chronic bronchitis, interstitial lung diseases, pneumonia, tuberculosis, pleural diseases, pulmonary fibrosis, and respiratory allergies. Additionally, he holds significant experience in evaluating and managing sleep disorders, including obstructive sleep apnea and insomnia. At Manipal Hospital, Salt Lake, Dr. Soumya Das is recognised for his exceptional skills in performing advanced procedures such as bronchoscopy, thoracentesis, lung function testing, allergy testing, and non-invasive ventilation. His ability to integrate cutting-edge diagnostic tools with personalised treatment strategies ensures that each patient receives holistic and progressive care. One of Dr. Das's strongest qualities is his patient-centric communication style. He takes time to understand each patient's symptoms, lifestyle, and concerns before designing an appropriate care plan. His clear explanations, empathetic counselling, and commitment to patient education help individuals and families feel confident throughout their treatment journey. Dr. Das also plays an important role in managing critical respiratory conditions, working closely with multidisciplinary teams to provide comprehensive care for ICU patients. His active involvement in preventive respiratory health, smoking cessation counselling, and public awareness initiatives highlights his commitment to community well-being. With his clinical expertise, modern diagnostic approach, and dedication to long-term respiratory health, Dr. Soumya Das stands out as a reliable, compassionate, and highly capable Pulmonologist at Manipal Hospital, Salt Lake, helping patients breathe easier and live healthier lives.
