MBBS | MS | FICS | FRCS (Glasgow) | FVSI | FVES

### Overview

Dr. Venkatesh Reddy is a reputed vascular surgeon based in Bangalore with an experience of more than 29 years in the field of vascular surgery. At present, he is associated with the Manipal Hospitals, Sarjapur Road, Bengaluru, as a Consultant for Vascular and Endovascular Surgery. Apart from vascular surgery, he also specialises in endovascular surgeries, treatment of peripheral vascular diseases, and sclerotherapy for varicose veins. He is a highly respected doctor in the medical field and is popular among his patients as a friendly doctor with an accurate diagnosis. Dr. Reddy has been a great academic from the beginning. He pursued his MBBS from Sri Siddhartha Medical College and graduated with flying colours in the year 1994. After graduating, he pursued his MS (Masters in Surgery) in General Surgery. The International College of Surgeons situated in Chicago, USA, has offered him a fellowship. He was also awarded a fellowship by the Royal College of Surgeons situated in Glasgow in the United Kingdom. He is a foremost consultant vascular & endovascular surgeon in Sarjapur Road, Bangalore. Dr. Reddy has expertise in intervention for peripheral vascular diseases. He also has good knowledge about the management of diabetes, treatment of various fevers, and treatment of varicose veins with sclerotherapy. He is a part of the Vascular Society of India as their fellow as well. The society works for enhancing the knowledge and skills of vascular specialists across India. He has been actively participating in their activities ever since he became a member. He has vast experience in vascular surgeries and endovascular surgeries. Dr. Reddy is the best vascular surgeon in Bangalore. Dr. Reddy has a membership of the Association of Surgeons of India, an association that works with the aim to provide high-quality healthcare to patients in India and across the world. He has received a fellowship from the Venous Association of India as well. The Surgeons Association of India has given him a gold medal for his presentation at the conference organised by their branch in Karnataka. He has written articles in newspapers and medical journals about various topics. His article about the issue of gangrene in patients after they recover from COVID was published by the Indian Express, a leading newspaper and platform. He was interviewed about deep vein thrombosis by The Week. The interview was for their article about the topic. He speaks English, Kannada, Telugu, Hindi, and Tamil fluently. Dr. Venkatesh Reddy has presented his papers at various conferences and he has been a speaker there as well. This includes national and international conferences. He has written many articles about vascular surgery with an aim to educate people about various vascular health issues and what treatments are available for them.
