

DR. ARUNAVA GHOSH

Consultant - ENT Specialist

Qualification

MBBS | MS ENT

Overview

Dr. Arunava Ghosh is a Consultant in ENT (Ear, Nose, and Throat) at Manipal Hospitals, Siliguri, with a strong academic foundation including an MBBS degree earned in 2012 and an M.S. in ENT and Head-Neck Surgery completed in 2020. Renowned for his expertise in comprehensive ENT care, Dr. Ghosh brings advanced diagnostic and surgical precision to the forefront of patient care. His proficiency spans a wide array of OPD procedures such as fibre optic laryngoscopy, diagnostic nasal endoscopy, otoendoscopy, otoscopy, rhinoscopy, indirect laryngoscopy, suction clearance of the ear, as well as safe and hygienic ear/nose piercing. In the domain of day care ENT procedures, Dr. Ghosh is highly skilled in administering intratympanic steroid and intralesional injections, performing grommet insertion, excision of small tumours, ear syringing under local anaesthesia, and chemical/electrocauterisation. He offers expert evaluation and management of vertigo, aural and nasal packing, EUM, and other minimally invasive ENT interventions, ensuring quick recovery and optimal outcomes. He is the best ENT Specialist in Pradhan Nagar, Siliguri. With a meticulous approach to operative procedures, Dr. Ghosh specialises in a spectrum of surgeries across the ear, nose, and throat. His surgical repertoire includes myringoplasty, tympanoplasty, mastoid exploration, and aural foreign body removal under the ear segment. For nasal conditions, he performs septoplasty, basic and advanced FESS, full house FESS, endoscopic DCR, haemangioma excision, septal abscess management, nasal foreign body removal, polypectomy, and nasal bone fracture reduction. His throat-related surgical expertise encompasses tonsillectomy, adenoidectomy, submandibular gland excision, tongue tie release, thyroidectomy, thyroglossal cyst excision, tracheostomy (both elective and emergency), neck dissection, lymph node biopsy, step ladder operation, repair of cut throat injuries, parotidectomy, rigid oesophagoscopy, and removal of foreign bodies.
