

DR. RICHARD NARJINARY

Consultant - ENT

Qualification

M.B.B.S | DLO

Overview

Dr. Richard Narjinary is an experienced ENT specialist and Associate Consultant at Manipal Hospitals, Siliguri, with over nine years of expertise in Otorhinolaryngology. Renowned for his precision and dedication, Dr. Narjinary specialises in advanced microscopic and endoscopic ear surgeries, including rare endoscopic stapes procedures, making him a pioneer in North Bengal. His proficiency extends to Functional Endoscopic Sinus Surgery (FESS), rhinoplasty, and thyroid and head-neck surgeries, offering comprehensive ENT solutions to patients. With a strong commitment to serving rural and underserved communities, Dr. Narjinary has provided specialised ENT care to regions lacking advanced medical infrastructure. His ability to perform complex surgical interventions with minimal invasiveness ensures optimal patient outcomes. He holds an M.B.B.S degree (2003) and a Diploma in Otorhinolaryngology (2014), which have equipped him with extensive knowledge in treating various ENT conditions. Dr. Narjinary's expertise in rhinoplasty allows him to enhance both the aesthetics and functionality of the nose, catering to patients with breathing difficulties and cosmetic concerns. His skills in thyroid and head-neck surgeries help manage complex conditions with utmost precision and care. Patients trust his meticulous approach, patient-centric care, and adoption of the latest surgical innovations. As an expert in minimally invasive procedures, Dr. Narjinary ensures quicker recovery times and reduced post-operative discomfort, making him a preferred choice among ENT patients. For those seeking specialised ENT care in Siliguri, Dr. Richard Narjinary offers unparalleled expertise in ear, nose, and throat treatments, improving the quality of life for countless patients.
