

DR. MOHAMMED KHALID K

Consultant - Dental Science

Qualification

BDS | MDS (Orthodontics)

Overview

Dr. Mohammed Khalid K is a highly skilled orthodontist and implantologist in Yelahanka. He is currently practising as a Consultant – Orthodontics and Dental Implantology at Manipal Hospital Yelahanka, Bangalore, bringing decades of experience in comprehensive dental care, orthodontic treatment, and advanced implant procedures. With a deep commitment to patient-centred care, Dr. Khalid combines clinical expertise with cutting-edge technology to deliver precise, effective, and aesthetically optimal dental solutions for children, adolescents, and adults. Recognised as one of the best orthodontists in Yelahanka, he has earned a reputation for meticulous treatment planning, expert handling of complex cases, and a collaborative approach to multidisciplinary dental care. Dr. Khalid's clinical practice spans a wide spectrum of orthodontic interventions, including preventive and interceptive orthodontics, fixed and removable appliance therapies, lingual orthodontics, surgical orthodontics, and full-mouth rehabilitation. His expertise also encompasses advanced mechanotherapy techniques such as Begg's, Roth, and MBT systems, along with the clinical application of temporary anchorage devices (TADs) for precise tooth movement. Additionally, Dr. Khalid is experienced in managing cleft deformities, integrating functional appliances, and providing multidisciplinary care in collaboration with oral surgeons, prosthodontists, and pediatric dentists. His approach ensures both functional excellence and aesthetic satisfaction for patients with diverse orthodontic and dental needs. Beyond clinical practice, Dr. Khalid is committed to research, academic development, and continuous professional learning. He has contributed to multiple original research studies, including investigations into the mechanical properties of orthodontic materials and innovative treatment modalities for temporomandibular joint disorders. He has presented scientific papers and posters at national conferences, such as the Indian Dental Association national meet and the All India Institute of Medical Sciences, New Delhi, earning recognition for excellence in research and clinical innovation. Certifications from internationally renowned mentors, including Dr. Ravindra Nanda (University of Connecticut, USA) and Dr. Anoop Sondhi (USA), reflect his commitment to staying at the forefront of modern orthodontic practice. Dr. Khalid also brings a patient-focused, personalised approach to care. Each treatment plan is carefully tailored to the individual's anatomical, functional, and aesthetic requirements. His work as an orthodontist in Yelahanka incorporates advanced diagnostic imaging, precise treatment planning, and adherence to international standards of dental care. Patients benefit from his holistic understanding of craniofacial growth and development, allowing him to provide treatments that are both preventive and corrective, ensuring long-term oral health and a confident smile. For patients seeking the best orthodontist in Yelahanka, Dr. Mohammed Khalid K exemplifies clinical precision, academic excellence, and compassionate care. His combined expertise in orthodontics and implantology, along with his dedication to innovation and patient safety, ensures that every individual receives the highest standard of dental care. Whether addressing complex malocclusions, aesthetic concerns, or implant rehabilitation, he remains a trusted specialist for families and referring clinicians alike, providing reliable, effective, and lasting results.
